

**Professional preparation**

Postdoctoral training, 7/2012 – 6/2014	Dynamical Systems, Robotics, Animal Behavior	New York University, Brooklyn, NY, USA
Ph.D., 2012	Aerospace Engineering	University of Maryland, College Park, MD, USA
M.Eng., 2005	Systems Engineering	Cornell University, Ithaca, NY, USA
B.E., 2000	Mechanical Engineering	Delhi College of Engineering, Delhi University, New Delhi, India

**Academic Appointments**

08/2016—	<b>Assistant Professor</b> , Department of Mechanical Engineering, Northern Illinois University, DeKalb, IL, USA
07/2014—12/2015	<b>Assistant Professor</b> , Indraprastha Institute of Information Technology Delhi (IIIT-Delhi), New Delhi, India.

**Other Appointments**

03/2016—07/2016	<b>Visiting Scholar</b> , Johns Hopkins University, Baltimore, MD, USA
06/2015—08/2015	<b>Visiting Professor</b> , New York University, Brooklyn, NY, USA
08/2000—08/2004	<b>Systems Engineer</b> , Tata Consultancy Services, Delhi, India

### **Editorial activities**

- Topic Editor for European Physical Journal (EPJ) Special issue titled “Dynamics of Animal Systems” with Nicole Abaid (Virginia Tech), Maurizio Porfiri (New York University), and Davide Spinello (University of Ottawa)

### **External Grants**

- National Science Foundation - Sensors, Dynamics, & Control: “Causal Relationships Underlying the Collective Dynamic Behavior of Swarms” (Co-investigator and sub-awardee, \$22,676, CMMI 1433670, \$350k, September 2014 - August 2017, PI: Maurizio Porfiri, New York University)

### **Awards**

- Travel Awards for International Conference on Intelligent Robots and Systems (2015), International Workshop on Complex Systems and Networks (2012), International Conference on Robotics and Automation (2012), International Conference of the IEEE Engineering in Medicine and Biology Society (2011)
- Dean’s Graduate Fellowship, University of Maryland, 2007–08

### **Media coverage**

- *EurekaAlert*, *National Science Foundation*, *Futurity*, *Phys.org*, “Swimming for Science: Fish 3D platform for simulating Zebrafish Behavior may replace animals in some research”, January, 2017
- *Reuters*, *Discover magazine*, *Popular science*, *National Science Foundation*, *MSN news*, *Redorbit*, *Futurity*, *Mental floss*, “Follow that Fish! Zebrafish React Differently to Alcohol When Shoalmates are Close by”. May, 2014
- *Nautilus Science Magazine*, “Animals Bow to Their Mechanical Overlords: Robots are infiltrating insect, fish, and bird communities—and seizing control”. Emily Anthes, February 13, 2014
- *E@M*, *The Magazine of the Clark School of Engineering*, *University of Maryland*, “We, Robots” Spring 2011.

### **Teaching<sup>2</sup>**

Northern Illinois University (NIU)

- *Engineering vibrations*: undergraduate course with laboratory component on the analysis of free and forced vibration in single and multi degree-of-freedom systems. 2016 (80 students; 49% response rate, 2.54/5, 2.78/5)

---

<sup>2</sup> Teaching evaluation is reported in terms of two numbers: the first number is the average of questions related to the course effectiveness, and the second number is the average of questions related to the instructor effectiveness.

- *Mechanism design and analysis*: undergraduate course on the synthesis and kinematic analysis of mechanisms including a design project. 2016 (82 students; 48% response rate, 2.80/5, 2.81/5)
- *Robot vision and control*: undergraduate and graduate course on using vision to control mobile and manipulator robots; includes four team projects. 2017 (39 students; 28% response rate, 4.04/5, 4.41/5)

### IIIT-Delhi

- *Modeling complex systems*: senior undergraduate and graduate level course on mathematical models of complex systems including population dynamics, disease spreading, collective motion, real-world networks, traffic flow, and social contagion. 2014 (3 students; 4.0/5.0, 5.0/5.0), 2015 (16 students; 3.81/5.0, 3.97/5.0)
- *Math III, multivariable calculus*: undergraduate level course jointly taught with two other faculty in 2014 (60 students)
- *Stochastic estimation and control*: graduate level course on linear estimation and control of dynamical systems with introduction to nonlinear estimation methods; half semester, 2015 (9 students; 3.3/5.0, 3.33/5.0)

### Advising

#### Doctoral thesis

- Sathish, V. (2014-), IIIT-Delhi, Sponsored by ABB Group, Data-driven detection of wear-induced faults in industrial robots

#### Masters thesis

- Mohammadi, E. (2016-), Northern Illinois University
- Maridi, K. (2016-), Northern Illinois University
- Kempel, J. (2017-)
- Boddeeti, H. (2017-)

#### Undergraduate research thesis

- Puneet Jain (2015-), IIIT-Delhi, Frequency response analysis of mosquito swarming behavior

#### Senior design team projects

- William Moran, Rob LaBore, James Burke, Jonathan Schmid, Sound-based omnidirectional collision avoidance in unmanned aerial vehicles, NIU, (2016-2017)
- Jose Chavez, Jerry Galeana, Juan Mendez, Ramadan Matariyeh, Blake Wuestenfeld, Flow tunnel design for studying hydrodynamics of schooling fish, NIU, (2016-2017)
- Kyle Brown, Lee Gilbert, Adam Zaucha, Joshua Jufko, Active Magnetic Levitation, NIU, (2016-2017)

#### Internships

- Naman Gupta (2015), IIIT-Delhi, Authoring virtual reality display to study crowd behavior
- Anmol Singh (2015), IIIT-Delhi, Developing motion capture for crowd behavior test bed

- Abhishek Bhatia (2014-2015), IIT-Delhi, Experimental evaluation and modeling of crowd evacuation
- Sidharth Raja (2015), Delhi Technological University, Identifying features of group membership in crowds for natural robot navigation

Academic advisor for 40-50 students every semester at NIU

### **Invited Talks**

- Learning from and about animal behavior: from natural to engineered collectives, Michigan State University, March 2, 2016; New Jersey Institute of Technology, March 8, 2016; Northern Illinois University, May 5, 2016
- Simulating social robot interaction with moving pedestrian crowds, Department of Mechanical & Aerospace Engineering, New York University, June 26, 2015
- Measuring information flow in fish-robot interactions, Centre for Ecological Sciences, Indian Institute of Science, Bangalore, December 1, 2014
- Low-dimensional representation of collective motion in animal groups, Indraprastha Institute of Information Technology, Delhi, June 4, 2013 (e-seminar)
- Collective motion in animal groups: trajectory reconstruction and manifold learning, Department of Mathematics and Computer Science, Clarkson University, January 22, 2013
- Model-based Estimation and Characterization of Collective Motion in Animal Groups, Department of Aerospace Engineering, Indian Institute of Technology, Kanpur, November 9, 2012 (Skype)

### **Workshops**

- Flow of information in collective animal behavior, Centre for Ecological Sciences, Indian Institute of Science, Bangalore, November 28, 2014

### **Professional Service**

- Minisymposium co-organizer, Data-driven Analysis and Modeling of Real-world Dynamical Systems, SIAM Conference on Applications of Dynamical Systems, Snowbird, Utah, 2017
- Session co-chair, Biologically-inspired control and its applications, Dynamic Systems and Control Conference 2013

### **Reviewing Activities**

- *Journals*: ASME Journal of Dynamic Systems, Automatica, Behavior Research Methods, Bioinspiration & Biomimetics, Biological Invasions, Chaos: An Interdisciplinary Journal of Nonlinear Science, Communications in Nonlinear Science and Numerical Simulation, IEEE Transactions on Circuits and Systems I, IEEE Transactions on Control of Network Systems, IEEE Transactions on Mechatronics, International Journal of Mechanical Sciences, International Journal of Robust and Nonlinear Control, International Journal of Computer Assisted Radiology and Surgery, Journal of the Royal Society Interface, Measurement and Control, Neural Computing and Applications, PeerJ, PLoS One, Royal Society Open Science
- *Conferences*: IEEE American Control Conference (ACC), IEEE Conference on Decision and Control (CDC), IEEE International Conference on Robotics and Automation (ICRA), IEEE/RSS International Conference on Intelligent Robots and Systems (IROS), Dynamic

Systems and Control Conference (DSCC), International Federation of Automatic Control (IFAC)

- *Grant Proposals*: German Research Foundation, Human Frontier Science Program, IMPRINT-India, Luxembourg National Research Fund, National Science Foundation

**Professional Societies**

SIAM, IEEE Robotics and Automation, IEEE Controls Systems
